Discussion & Reflection: Answer the following questions in complete sentences

1. Why do you think only a few humans have perfect pitch, but most songbirds do?

Only a few humans have perfect pitch because it is a rare ability, but songbirds are born with it, as it is important to their survival.

2. Describe what makes birds' songs special compared to random noises.

Birds' songs are special because they are organized, harmonious, and melodic, unlike random noises which have no pattern or beauty. Birds often sing together in perfect harmony, creating beautiful music to communicate with each other.
